

DEVOS FOR HIGHER ED

DEVOS 4

Multimedia Education and Events

The Discover Video DEVOS system provides universities and colleges the ability to use HD video communications for education, event distribution, lecture capture, and distance learning. DEVOS is a comprehensive hybrid on-premise or cloud based system for live streaming, on-demand libraries, digital signage, and priority alert (emergency communications). In addition, it can scale to fit a small college or a large multi-campus university.

WITHIN THE SCHOOL

- Digital Signage for news and events
- Lecture Capture and distribution
- Employee training and compliance
- Educator Created Content (ECC)
- Emergency Priority Alert
- Learning Path Video Based Courses

OUTSIDE THE SCHOOL

- Deliver Graduations live on the Internet
- Distance Learning
- Event and Seminar Webcasts
- Share Sporting events with families

Benefits to Colleges and Universities

- Allow students to learn in the classroom, dormitory, or any other location
- Provide students the latest news and schedules through Digital Signage TV monitors
- Enhance your emergency notification system with video priority alert
- Permit families and friends to view graduations and events live at home on computers or tablets
- Lower training costs and deliver Human Resource information online to employees

How it Works

The DEVOS hybrid system distributes live and on-demand multimedia video to viewers on computers, mobile devices, or TVs. Discover Video software encoders provide the ability to stream or record events, classroom lectures, and presentations for local or external broadcast.

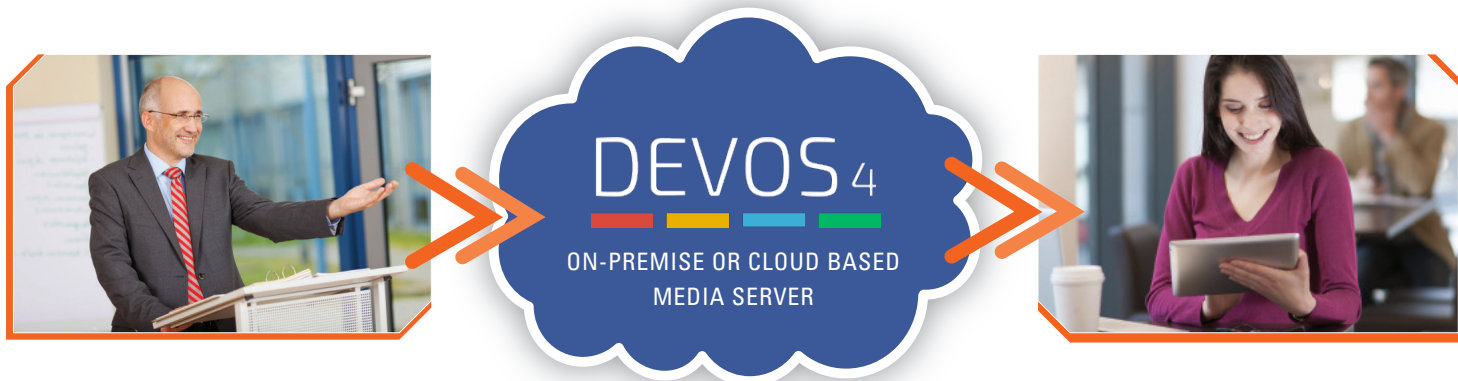

The DEVOS on premises or cloud based system manages, organizes, and delivers live or on-demand content securely to students or outside viewers. Any content can be password protected or require logon through Active Directory for security.

Why DEVOS

- Viewing on all types of devices including **iPads, iPhones, Androids, Roku** boxes
- Hybrid architecture providing **efficient bandwidth utilization**
- **Streaming and recording** from iPads, iPhones, and computers
- Complete **digital signage** system included with DEVOS
- **Lecture Capture** with Multiview
- Less than **half the price** of competitive systems
- Integrated **Learning Path System**

Key Features

- Ability to **insert questions** into videos for inline testing
- **Create playlists** for video lessons and attach reference documents
- Integrates with Sharepoint or **LMS** systems
- Desktop capture (ie **Powerpoint**) with video and audio
- Full **viewing statistics** via integrated dashboard
- Install on-site, VM, or **cloud based**
- **Automated grading** of multiple choice questions in videos
- Tracking of viewers for **compliance** verification
