

PEGPETIA ED TECH GRANT FACT SHEET

WHAT IS PEGPETIA?

The PEGPETIA Grant Program, administered by the Connecticut Department of Public Utilities Regulatory Authority (PURA), provides funding to schools, towns, and community TV stations, to purchase education and broadcasting technology.

TOP 5 REASONS TO APPLY

1. You'll have essentially free money to purchase your video capture, management and delivery system, improving student engagement and teacher satisfaction.
2. Current technology will increase teacher creativity, ease staff frustrations, and promote school security.
3. Technology is constantly changing, but equipment will be effective for at least 5 years and able to be maintained for 7 years.
4. You can have DiscoverVideo help you through the process of applying for your grant, guiding you with a compelling case for the equipment and specifications for your system.
5. When you work with DiscoverVideo we'll be by your side all the way through purchasing, installation, and training, as well as ongoing support.

Griswold Public Schools
Educating for Excellence

"Daily student engagement has grown tremendously since we started doing video morning announcements, as they 'tune-in' to watch their friends on 'the news,' as well as curated content. The experience as performers, technicians, reporters, and producers is priceless. The staff and I love the ease of use of the DEVOS system for curriculum and content delivery. The transition from the old analog system to digital streaming was very affordable and the installation was seamless. We have no idea how we managed without this upgrade!"

Kyle Gunderman
Educational Technology Infrastructure Manager
Griswold Public Schools
Griswold, CT

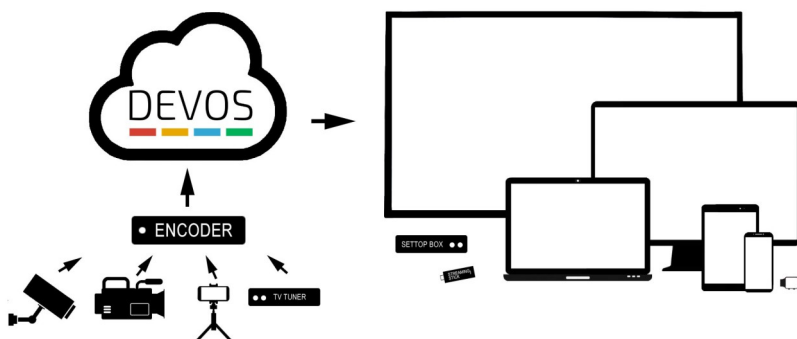

DiscoverVideo has been helping schools write and receive substantial grants for video system platform installations and upgrades since the PEGPETIA fund's creation in 2008.

We work with you to know your requirements and help you write a watertight grant application with the appropriate specifications.

Transform Your School Culture and Student Experience with DEVOS Streaming Video Management Platform

The Discover Video DEVOS system is used by thousands of K-12 schools to enhance teaching, professional development, sharing major events with families, and delivering school news and schedules. DEVOS is a comprehensive streaming video management platform. Its scalable on-premise or cloud-based system that manages, organizes, and delivers live or on-demand content securely to students or outside viewers. Send media to any device anywhere anytime. It is very cost effective way to increase student and community engagement, easily deployed in one school, or an entire district.

MULTI-CHANNEL INPUTS SEND MEDIA TO THE DEVOS SERVER
FOR DISTRIBUTION TO ANY SCREEN ANYWHERE
