ARCUS Streaming Service

Discover Video ARCUS Streaming Service provides world-class, ad-free, live Internet video streaming and Digital Signage. ARCUS works with DiscoverVideo's included Streamsie® and OBS (Open Broadcaster Software). You can also pair with Scorpion or Spider video appliances, and many third-party live streaming encoders.

Incredible Social Media Reach

ARCUS uniquely supports simultaneous delivery of your live stream to Facebook, YouTube, Twitter, Twitch, and Vimeo! Send one stream to ARCUS and it can be instantly viewed on your private, custom ARCUS player page as well as your desired social media. It's perfect for influencers and live events.

Simplicity

The ARCUS service is ultra simple to use: enter an account code, user-name, and password and your DV encoder is automatically set up and ready to go. No managing multiple server addresses, ports, user-name, passwords, remote directory, etc. for each of the provided services eliminates the most common setup errors. What's more, the system provides full remote control of encoders.

Secure High Quality Formats

The service supports industry standard H.264 at SD, HD or 4K resolution, delivering stunning,high-quality video and audio. ARCUS is delivered on a secure connection, and you can password-protect any stream.

HTML5

No plugins, or Flash, no drama. ARCUS delivers live content in highly compatible, secure HTML5 format.

Live
- Streaming H264/AAC (AVC)

ARCUS
LIVE STREAMING SERVICE

Any Screen Delivery

Deliver your live stream to any desktop, mobile device, or TV.

World-Class CDN with Support

Discover Video's Content Delivery Network gives you the reach and scale necessary for exceptional quality for every viewer. Whether it's a live broadcast to 10 or 10,000 viewers, the service will scale to meet your needs.

Monetize Your Content

Viewers can watch your content for free, you can sell tickets, or ask for donations. You can even have your viewers donate bandwidth! ARCUS is integrated with your PayPal account so that 100% of any money you receive goes in your pocket. Unlike our competitors, we don't take a cut.
