

## Overview

The Signage Media Player works with Discover Video DEVOS and related systems to display high quality signage on monitors via HDMI.

## Simple

Just plug the player into a conventional TV display via HDMI, power the unit and connect it to the network. Login to the unit from a browser and set the DEVOS Digital Signage address, and you are done.

## Manage

You manage all signage directly from the DEVOS system. But if you wish to access the Media Player directly it is very easy: Use the included Finder program and every Media Player on your network will be listed, just click on one to manage it. Media Player does not need a fixed IP address but you can assign one if desired.

## HD/SD/Images/Web

The system displays live and VoD HD and SD content, playlists, web pages, images, etc. under control of the DEVOS system.

## Multiple Outputs

Each Media Player supports two monitors, one via full size HDMI port, and one via Mini Display port.

## Local Playback

The ability to download and store playlists locally to the device to save on bandwidth.

## Digital Signage

DEVOS supports an unlimited number of Digital Signage displays, and with the Media Player, you can easily put a dynamic sign virtually anywhere. Put a sign in lobbies, hallways, common areas, lunch rooms, or anywhere people gather. You can even put a signage display outside of your local network and display your information at other buildings, even homes.

## Display

- Videos
- PowerPoint Slides
- Google Slides
- Webpages
- Text
- Images

## Quality

Plays High Definition Video

## Benefits

- Unattended Operation
- HD Video Display

## Streaming

Like modern streaming players from Roku, Amazon, Apple, and others, the Media Player plays your content via streaming from your DEVOS premises or cloud system.

## Organizations

The Digital Signage Media Player can be used in K-12 schools, universities, retail stores, businesses, government buildings and sports venues. Each player can display its unique content.

## System Specifications

- **Model** Digital Signage Media Player
- **Dimension** 4.53"x4.37"x1.89" - 115mm x 111mm x 48mm
- **CPU/RAM** Intel Core i3-6100U 2.3GHz or equiv., 4GB RAM
- **Storage** 120GB SATA
- **USB** 3.0 x2
- **HDMI** HDMI V1.4a, Mini Display Port 1.2
- **Audio** HDMI Embedded audio, Headphone Jack
- **WiFi** Dual Band Wireless-AC IEEE 802.11ac, up to 867 Mbps
- **Temp** 0 to +50 C operating, -20 to +70 C storage
- **Regulatory** IEC 60950-1 ~ UL 60950-1 ~ CAN/CSA-C22.2 No. 60950-1  
FCC CFR Title 47, Chapter I, Part 15, Subparts A,B RoHAS, WEEE
- **Power** 19V, 65W Power Adapter
- **Accessories Included** VESA Mounting Plate

## Companion Products

- DEVOS
- Arcus
- Streamsie
- DV Express
