What's New

DEVOS update 4.9.8 is a minor release.

Changes and Improvements

- Multi-Factor authorization now available. If enabled in the system super portal, then a one-time code is sent via email to the user each time they attempt to log in.
- Reports custom date range issues have been resolved.
- When posting a video to Facebook or Twitter, the video image shown for the preview has been improved.
- Webcam recording has been improved.
- Closed Caption live video API has been improved.
- Multiple languages are now supported for VoD Closed Captions. Any VoD can now have separate viewer selection to view captions in desired language.
- Podcast duration issue has been resolved.
- When transferring a video to a user, the system now uses the default System Setting for media values.
- Learning Path results now include date/time.
  .

How To Update

Login to the system with super administrator privilege. Navigate to Super Portal / Devos Settings / About. Select "Check Now" and follow instructions.

If you do not have active software maintenance, the update will not be available. Contact sales@discovervideo.com to renew maintenance.

The update will take about 30 minutes and the system may be inoperable during this time. Contact DiscoverVideo Support for help.
